

Adrienne Smith | FRONT-END WEB DEVELOPER

Austin, TX | 281-961-8249 | agsmith046@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Web developer skilled in the PERN stack with a particular knack for front-end design. Driven by an eagerness to acquire knowledge and excited to join a team that values collaboration in an effort to create beautiful and intuitive products.

SKILLS

Front-end: HTML5, CSS3, JavaScript, jQuery, React.js

Back-end: PostgreSQL, Node.js, Express.js

Additional: Mocha, Chai, Git, GitHub, Heroku, RESTful APIs, Unit Testing, Algorithms, Data Structures, Node Package Manager, Enzyme

RELATED EXPERIENCE

Travel Companion: [GitHub](#) | [Live Site](#) *Full stack online app for keeping track of travel information.*

- Developed and deployed scalable web app including backend API so user data would persist
- Implemented moment.js to format times and dates

Built with HTML, CSS, JavaScript, React, Express, Node, and PostgreSQL.

Learning Latin: [GitHub](#) | [Live Site](#) *Full stack online app that helps users learn 10 Latin words with the use of our spaced repetition algorithm.*

- Developed dashboard and login pages and connected to backend API
- Implemented redirect if user token expired
- Collaborated on spaced repetition algorithm and back-end testing

Built with HTML, CSS, JavaScript, React, Express, Node, and PostgreSQL.

Catch-A-Ride: [GitHub](#) | [Live Site](#) *Full stack online app for connecting with people to share rides. It allows people to find others heading in to the same location and effectively carpool together.*

- Designed and implemented styling
- Created "My Rides" route on front end, updated services to get correct data from back-end

Built with HTML, CSS, JavaScript, React, Express, Node, and PostgreSQL.
